Contractor: Everlast Group
Project: Sundorne Retail Park
Substrate: Plastisol coated metal sheets /
Galvanized metal gutter
Size: In excess of 1000m²
Material: Wmp 713 Metal Primer, Wecryl
230thix + Fleece, Wecryl 288 White
Finish
Completion: May 2015

Wmp 713 Metal Primer installed to metal gutter

Existing plastisol coated roof failing at the Sundorne Retail Park in Shrewsbury. WestWood PMMA System specified to rectify the problems

All the dirt and flaking paint needed removing and any shiny galvanized metal had to be abraded prior to coating. The left panels reflect the uncleaned area compared to the cleaned ones on the right

Wecryl 288 Finish in White was installed on the plastisol sheets to enhance and protect. Covered by our WestWood insurance backed Warranty
