St Regis House Cambridge

St Regis House, Cambridge

PU Waterproofing System coating on an approx. 300m² Felt Roof owned by Clare College Cambridge

Contractor: Roofing Contractors Cambridge Ltd
Project: St Regis House, Hamilton Road, Cambridge
Substrate: Felt, some metal areas
Size: 300m²
Material: Wmp 713 Metal Primer, Wethan 275, Wethan 280 Flashing
Completion: June 2015

Clare College is a constituent college of the University of Cambridge. Various leaks on the existing felt roof were apparent.

Roofing Contractors Cambridge Ltd applied Wethan 275 and reinforced the detailing with Wethan 280 Flashing to approximately 300m². St Regis House provide accommodation for graduates which is owned by Clare College Cambridge.
